SMRF Driver page scheduling enhancements (PCR 23676)
Review driver scheduling enhancements (PCR 23675)
In order to save worker time, there have been several changes made to the pages scheduled in the SMRF driver and the Review driver (demographics pages only). In some cases, summary pages will now be scheduled instead of detailed pages. The intent of scheduling summary pages is to allow the user to review the current information to assess whether any changes are necessary without having to go through the time consuming process of viewing each detailed record one by one. The pages that will now be scheduled have been chosen to carefully balance the goals of workload savings and payment accuracy.

Current Demographics	Individual Demographics Summary
School Enrollment	School Enrollment
Benefits Received	Benefits / School Summary

**Do not schedule Absent Parent for FPW only cases (PCR 23688)**
The Absent Parent page will no longer be scheduled for a Family Planning Waiver only case.

Additional Data – Change field name to Assigned Worker ID (PCR 23839)
In the Additional Data page, the term' Worker ID' is currently used.   To clarify that this refers to the worker that the case will be assigned to, the term 'Assigned Worker ID' will now be used. 'Worker Name' will also be changed to' Assigned Worker Name'.

Life Insurance Assets – Verification layout enhancement (PCR 22118)
'Cash Surrender Value' has been moved to the next line and 'Verification' is placed next to it. The 'Verification' will be required only when the 'Cash Surrender Value' is entered. If the 'Verification' is entered, then 'Cash Surrender Value' is required.
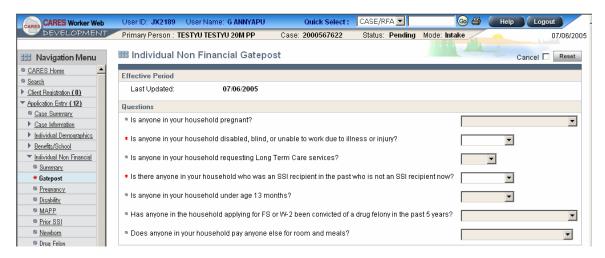

Move Return Button to top of Systems Error Page (PCR 23671)
Since some system errors are longer than the screen, some workers have reported that it is not obvious that there is a "Return" button at the bottom of the page. A "return" button is being added to the top of the page so users can easily navigate back to CARES Worker Web.
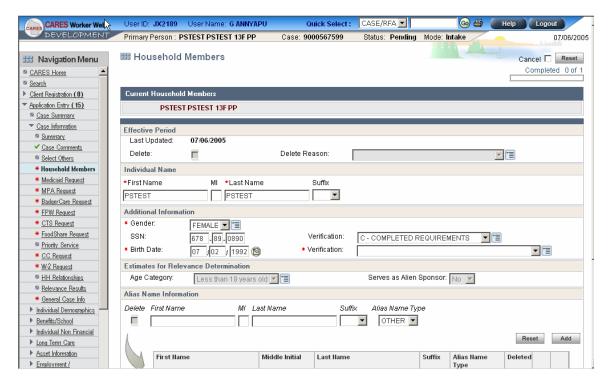

Non Financial Gatepost – Additional program intelligence (PCR 23054)
On the Individual Non-Financial Gatepost page, the 'Pregnancy' field will now be marked as beige if none of the individuals in the case are female. The newborn question will be marked as beige if none of the individuals in the case are under two years old.

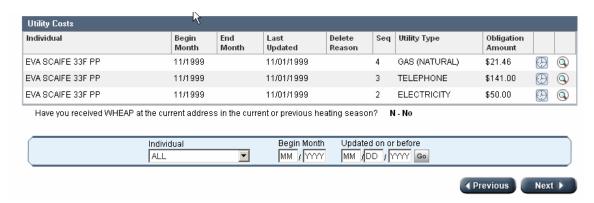

Household Members – Defaulting Alien Sponsor question for minors (PCR 23686)
On the Household Members page, if a person is less than 18 years old, the 'Serves as Alien Sponsor" question will be set to no and will be disabled.

Add WHEAP Indicator to Expense Summary (PCR 23682)
The WHEAP question, which is currently answered on the Expense Gatepost, will now be shown as read only on the Expense Summary for informational purposes.

Utility Costs									
Individual	Begin Month	End Month	Last Updated	Delete Reason	Seq	Utility Type	Obligation Amount		
EVA SCAIFE 33F PP	11/1999		11/01/1999		4	GAS (NATURAL)	$21.46		
EVA SCAIFE 33F PP	11/1999		11/01/1999		3	TELEPHONE	$141.00		
EVA SCAIFE 33F PP	11/1999		11/01/1999		2	ELECTRICITY	$50.00		

Have you received WHEAP at the current address in the current or previous heating season?   **N - No**

Individual	Begin Month	Updated on or before

Additional Fixes (Bundle 8662)
There will be some additional fixes made to CWW to help make it faster and to fix a few System Errors that have been occurring. There will also be some minor changes such as changing around some data validations.
